What is KPMG Digital Nexus?

KPMG Digital Nexus focuses on five major objectives: improve the operating performance of IT, accelerate the internal and market deployment of leading digital technologies, develop and implement a data strategy, strengthen our security controls to protect our information and data, and establish a new future-ready IT operating model for the firm.

We have already made great strides in these areas. We have teams working to improve the stability and resiliency of our IT infrastructure, we are focusing heavily on cloud and intelligent automation to meet client needs and created a team of 1,000 core professionals who actively collaborate across Audit, Tax, Advisory and the

Business Process Groups. Through it all, we are committed to serving our clients and providing a better technology experience.

As our organization has grown, we have expanded our services and increased our capacity. There could not be a more exciting time to join our team! We are committed to identifying and developing the next generation of leaders in our organization. To learn more about Digital Nexus, or to be considered for an internship or full-time opportunity, please reach out to your local recruiter, or contact the Business Support Services mailbox:
